PR KADECO: OPENNESS THAT IS CONVINCING!

The open folding arm awning 110 from KADECO formerly erwilo, shows what it can do while meeting the highest standards of appearance and design, at the same time. Model 110 is an attractive style element of building architecture. It is our *entry-level* model among the terrace awnings.

Model 110 is available with crossed arms and can be coupled up to a width of 12m.

Like all durable patio awnings from KADECO formerly erwilo, the 110 model includes as standard, motorization, a sturdy 40 mm aluminium support tube and side panels as well as a matching round front profile.

For the powder coating we offer a selection of 20 standard colours to choose from. In addition to those, we are happy to produce other colours that customers might desire, upon request.
